THE CIS&T MAJOR AT PITT-BRADFORD

COMPUTER INFORMATION SYSTEMS AND TECHNOLOGY
As a CIS&T major, you’ll take a wide range of courses:

- Hardware
- Programming
- Networking
- Systems Administration
- Security
- Database Technology
- Systems Analysis and Design
- E-Commerce Technologies

Once you get broad knowledge of IT, you can choose several electives to build your specialization:

- Software development
- Cyber security and forensics
- Systems and network administration

You’ll also complete at least one internship as well as an applied research/development capstone project.

To learn more,
- visit www.upb.pitt.edu/academics/cist
- contact us at 800-872-1787 or admissions@upb.pitt.edu
- or connect with us on Facebook at Computer Information Systems and Technology at Pitt-Bradford.

When you graduate, you’ll be in demand. Armed with a degree from the University of Pittsburgh, our graduates get great jobs and get accepted to some of the top graduate schools:

- Max Asinger ’15, junior programmer analyst at Zippo Manufacturing Co.
- Dan Gribbon ’12, senior software engineer, Brand Networks, Rochester, N.Y.
- Dan Comes ’13, IT support specialist, Domtar Corp., Johnsonsburg, Pa
- Wes Milliron ’13, systems administrator at Helomics, a cancer diagnostics company in Pittsburgh
- Ridge Foster ’13, AbbVie, a major pharmaceutical firm in Chicago
- Steve Trumbull ’13, programmer, NexGen Technologies in Colorado
- Ivy Li ’15 is attending the University of Pittsburgh’s School of Information Science
- Chuanyu “Moose” Chen ’15, is attending Carnegie Mellon University’s School of Computer Science

“Our graduates’ average starting salaries are between $45,000 and $55,000.”
