Students in the RN-BSN program are Registered Nurses currently licensed in Pennsylvania. Nurses entering the RN-BSN program have graduated from an approved associate or diploma nursing program.

Graduation rates for the RN-BSN program Cohort of students entering in the fall 2013, 2014*, 2015, and 2016 term were 100%.

(*Predicted based on current degree progress)

Graduates of the RN-BSN program complete a survey 6-12 months after graduation which provides important information about the Pitt-Bradford RN-BSN program.

Although, many RN students are employed when they enter the RN-BSN program at the University of Pittsburgh at Bradford, the responses to the graduate surveys for the Graduating Class’ of 2013, 2014, 2015, and 2016 indicate that 100% of respondents* are working as Registered Nurses after graduation.

*Response rates: 80%, 60%, 55.6%, and 87.5%, respectively.
