You expect to get a lot out of your college experience. And you should. At Pitt-Bradford, we want to take you beyond your expectations. You’ll be part of a friendly, caring campus community here, where your professors will care about you and help you do your best.

We’re a regional campus of the University of Pittsburgh. That means you’ll get all of the benefits of being a part of our tight-knit campus community, but you’ll also have access to all of Pitt’s vast resources. And, when you graduate, you’ll receive your degree from the University of Pittsburgh, which is recognized and respected all over the world.

Academics

This is college, so you’re going to be hitting the books hard. But, you’ll also have many opportunities to go beyond textbooks and classroom lectures to get hands-on experiences—on campus and off—that will give you an advantage when you graduate.

On campus:

- Solve mock crimes in our CSI House.
- Care for “patients” in our simulated nursing lab.
- Create commercials for local businesses in our radio and TV studios.
- Conduct undergraduate research.
- Fine tune your programming skills in our computer information systems and technology lab.
- Practice your counseling skills in our psychology lab.

40 academic majors
18:1 student/faculty ratio
19 average class size
Student Researcher

Meet Brandon Garske, a biology major from North East, PA. Brandon first became interested in conducting research when he studied fruit flies in the genetics lab. The next year, he researched tumor development in fruit flies with his professor, Dr. Lauren Yaich.

“Having biology labs that are so interactive makes it much easier and more fun to learn the information. The size of Pitt-Bradford’s classes allows me to be more engaged so I have a better student-teacher relationship.”

Off Campus:

- Study in another country such as Germany, Japan, Spain, Costa Rica, Ecuador or Ireland.
- Get great experience as an intern. You can choose a local company, such as Zippo Manufacturing Co., or a national or international one such as Walt Disney World or the FBI.
- Work in the neighboring Allegheny National Forest or Allegany State Park.

30 students who studied abroad in 2014-2015
1500 students enrolled at Pitt-Bradford

Studying Abroad

Meet Nnedimma Ugochukwu, a computer information systems and technology major from Washington, DC. Nnedimma spent a year in Shanghai, China, where she studied Mandarin. When she returned, she spent her summer as an intern at Google. Yes, that Google.

“It was such a great experience to study abroad and meet people from all over the world.”

For more information on academics visit www.upb.pitt.edu/academics.
Housing

It’s simple: You won’t be cramped in a small dorm room. Instead, you’ll live in one of our apartment-style residence halls. Your apartment will be fully furnished, spacious and comfy. And when you’re hungry, visit our dining hall where you can get a salad, a slice or two of pizza, a made-to-order omelet, a juicy burger, a vegetarian black bean burger ... Well, you get the idea.

Learn more at www.upb.pitt.edu/residencelife.

Surrounding Area

Our campus, surrounded by wooded hills, is located in a beautiful area of northwestern Pennsylvania. Nearby are a national forest and a state park. That means you’ll have easy access to go hiking, canoeing, biking, fishing, skiing, picnicking or hunting. Or, you can just chill and enjoy the peace and quiet. It also means you’ll have many opportunities to study the environment.

Meet Jonathan Heck, an environmental studies major from Pittsburgh, PA. Jonathan spent a summer as an intern in Allegany State Park, located just minutes away from campus. He hiked much of the park’s 60,000 acres, and used a portable GPS to collect data points for new trailhead maps.

“I chose this area because it’s so scenic. The best part about Pitt-Bradford is the small community and the surrounding environment.”

317 acres: size of Pitt-Bradford campus

1000 Students living in the residence halls
Activities

You won’t be bored – unless you want to be – because we have more than 60 student clubs and organizations you can be a part of. If you’re interested in sports, we have 13 NCAA Division III varsity teams, an ice hockey club team, as well as several intramural teams. If you’re up for some adventure, our Outdoor Club plans trips to go rock climbing, spelunking, zip lining, skiing, white-water rafting, horseback riding and more.

But that’s not all. You can go to concerts, art exhibitions, lectures and plays. You’ll also have many opportunities to volunteer in the community. You can help build houses for Habitat for Humanity, walk dogs at the local SPCA and help out at the YWCA.

You’ll have something to do every day (after you finish studying, of course). Learn more about student life at www.upb.pitt.edu/studentlife.
After Graduation

Our graduates go places. With their Pitt degree, our grads get great jobs or are accepted into some of the most prestigious graduate schools in the country. Ninety-two percent have found a job in their career field or have entered graduate or professional school within six months of graduation.

Our alumni have gone above and beyond, across the country and around the world in various careers:

- Cardiovascular, thoracic and endovascular surgeon
- Television director for ESPN
- Economist for the U.S. Dept. of Education
- Forensics detective in Harrisburg Police Department
- Engineer at NASA
- Special events coordinator for the Ohio State Lottery
- Certified athletic trainer, York College of Pennsylvania
- Archaeologist for Grey and Pap

Many of our graduates choose to take their degree beyond Pitt-Bradford to graduate schools across the country:

- University of Pittsburgh School of Medicine
- Dartmouth College
- Duquesne University School of Law
- Temple University
- University of Alabama
- University at Buffalo
- University of California, Berkeley
- University of Pennsylvania

I want to go beyond

☐ Please send me your full-color viewbook with more information about the University of Pittsburgh at Bradford.

☐ I’m not interested in the University of Pittsburgh at Bradford. Please remove me from further consideration.

Visit Pitt-Bradford

The best way you’ll know if we’re right for you is to visit. Take a tour, sit in on a class, and meet the professors and students who you will soon consider your mentors and friends.

You can schedule a visit at any time during the school year, or join us for one of our special events. To schedule your visit, call us at 1-800-872-1787 or go online to www.upb.pitt.edu/visit.
Meet Yara Elbeshbishi of Montgomery Village, MD, who graduated in 2015 with a bachelor’s degree in chemistry. Yara took advantage of the many opportunities on campus, including interning and conducting research. Besides taking her required courses, she took additional courses, which sparked her interest in pursuing a career in the public health field. She’s currently a student at the University of Pittsburgh’s Graduate School of Public Health.

“My academic experience at Pitt-Bradford was exceptional. My four years at Pitt-Bradford were the most challenging years of my adult life but absolutely the most rewarding.”
