PROFESSIONAL BACKGROUND

Senior Executive Leadership Experience

Executive administrative experience in higher education at multi campus institutions with a focus on strategic planning, innovative academic program development through multiple delivery models, diversification of institutional revenue streams, fund raising, establishing international partnerships and building inclusive diverse academic communities.

University of Pittsburgh Bradford and Titusville (2019 to present)
President

Responsibilities: serve as senior executive leader of Bradford and Titusville campuses with oversight for strategic planning, fund raising, finances, academic and student affairs, government and community relations, and facilities.

African Leadership University (2017 to 2019)
Inaugural Provost & Senior Advisor

Responsibilities: serve as the inaugural Provost and thought partner for CEO and leadership team in establishing a university system designed to deliver academic programs on a mass scale across the African continent. Lead effort to build academic infrastructure to scaffold the academic enterprise, source and recruit faculty and support staff, and develop global network of academic partnerships to support the university throughout development.

Key Accomplishments:

- Developed academic and student affairs leadership structure including hiring of Deans and Program Managers who now oversee day to day operations for both Mauritius & Rwanda campuses.
- Successfully led the Rwanda campus through first full institution accreditation review by the Higher Education Council. Due to the quality of content and organization of materials, the accreditors requested these materials serve as a model for universities across the country.

- Developed the framework for Quality Assurance and Academic Governance for the African Leadership University System in partnership with Glasgow Caledonian University.
- Served critical role on leadership team that secured \$25 million-dollar investment to support five-year strategic plan.
- Established partnerships with strategic governmental offices, non-profit organizations and higher education institutions to build regional and global brand and expand internship opportunities for our students.
- Serve as lead academic spokesperson for the institution resulting in national media coverage for university, partnership opportunities, and ongoing speaking engagements.
- Served on the Mauritius Tertiary Education Council Steering Committee on Harmonization of the Higher Education Sector.

**Cambridge College (2015 to 2017)
Provost and Vice President for Academic Affairs**

Responsibilities: served as the chief academic officer providing leadership in all aspects of academic programs and student services on the main campus and four regional locations in Massachusetts, California and Puerto Rico. Oversight included: academic strategic planning, program development monitoring and evaluation, accreditation issues, faculty recruitment and mentoring, student affairs including advising, student support, disability services, international student services, career services, library and newly established Center for Excellence in Learning and Teaching. Significant initiatives included the expansion of online blended learning, integration of technology in pedagogy and internationalization of the College. Overall budget is \$30 million, unduplicated head count of 3,900 students.

Key Accomplishments:

- Led Academic Affairs in successful ten-year accreditation process with the New England Association of Schools and Colleges (NEASC).
- Guided cross college academic collaborations leading to the launch of the first new accelerated Bachelor's to MBA program and redesign of an interdisciplinary doctoral program in leadership studies.
- Secured external funding to support and lead the development and launch of the Center for Excellence in Learning and Teaching.
- Reorganized Student Affairs establishing a new Office of Undergraduate Academic Advising to ensure enhanced retention of students.
- Launched task force to expand international partnerships in China, Jordan, and Colombia including development of study abroad opportunities and recruitment of international students.
- Established College-wide Tech Council and faculty grant opportunities to support faculty use of technology and pedagogy that resulted in expanded faculty

engagement and participation in integrating technology and pedagogy in both online and face-to-face delivery.

- Led effort to become a host institution for the Mandela Washington Fellowship, a U.S. Department of State initiative that brought 25 African leaders to the College for a six-week Institute on Business and Entrepreneurship laying a foundation from which to build numerous partnerships across the African continent.

Lesley University (2011-2015)
Dean, Graduate School of Arts and Social Sciences

Responsibilities: administrative, fiscal, and academic oversight for graduate programs including Counselling & Psychology, Expressive Art Therapies, Master of Fine Arts in Creative Writing, International Higher Education & Intercultural Relations, Mindfulness Studies & Interdisciplinary Studies. Delivered programs both on campus as well as various sites in Massachusetts; program delivery included face-to-face and hybrid low residency programs. Overall budget is \$18 million, unduplicated head count of 1,250 students.

Key Accomplishments

- Increased overall Graduate School revenue by 15% over 4 year tenure.
- Developed and launched a low residency delivery model of the Expressive Therapies Division resulting in an additional enrolment of over 70 full-time low residency students in first two years of implementation while maintaining steady enrolment (400+ students) in the face-to-face on campus model.
- Established a new partnership with the Ministry of Education in Guyana funded by UNICEF to develop an interdisciplinary degree program that successfully graduated first cohort of 13 students with 100% retention. Developed the expansion of this program throughout the Caribbean.
- Developed and launched the first Mindfulness Studies graduate degree in the United States with 28 students in the inaugural cohort.
- Enhanced inbound marketing as evidenced by an over 200% increase in lead generation by engaging faculty in thought leadership pieces on the web concurrent with a web redesign and search engine optimization.
- In collaboration with the Office of Advancement and the Office of the President, established school and program-based donor cultivation approach designed to enhance scholarship funding through hosting of events and a school based alumnae newsletter.
- Advanced several key international partnerships and initiatives culminating in the establishment of a new Global Education Center providing resources supporting international exchange of both faculty and students as well as recruitment of international students.
- Established a mentoring program for junior faculty, resulting in the formation of faculty team-based research examining the efficacy of experiential pedagogy and exploring innovative approaches to incorporating technology in online learning.

This initiative ensured the success of the expanded low residency Expressive Therapies program that ultimately increased

- Increased racial diversity among faculty and staff with 38% of new hires (six of the sixteen) being persons of color.
- Provided academic oversight to the development of a new psychology doctoral program.
- Provided infrastructure and administrative support to develop emergence of two academic institutes providing opportunity for scholarly and public discourse: Institute of Psychology & the Other; Institute of Arts & Health.
- Established a series of community building wellness initiatives resulting in significant positive shifts in morale among both faculty and staff.
